A day in Val d'Orcia

With my family on the trail of
«The Gladiator» the famous
film by Ridley Scott

The Gladiator walked along this path to go back home. This place is visited by lots of tourists coming from all over the world. It is situated in Tuscany near Pienza. The path starts three kms. from Pienza in the direction of Terrapille. You can google and you will find a lot of photos of travellers in the same spot where the Gladiator was.

I was with my daughter and our partners.

We could hear a wonderful music. A tourist was playing the soundtrack of the film with his saxophone, to remember just when the gladiator was going to the Elysian Fields.

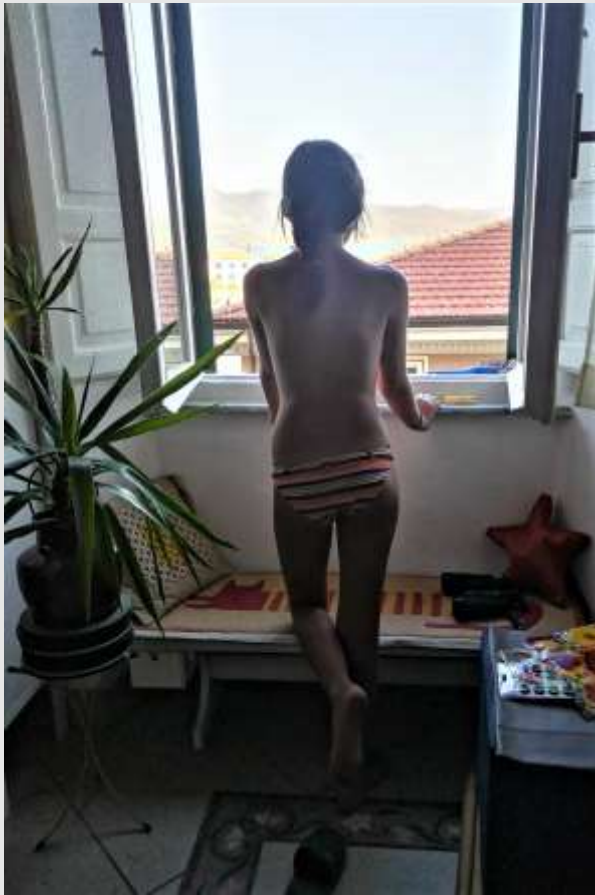

It was a terrific and magic experience!

Trekking at Santuario Madonna delle Grazie al Sasso

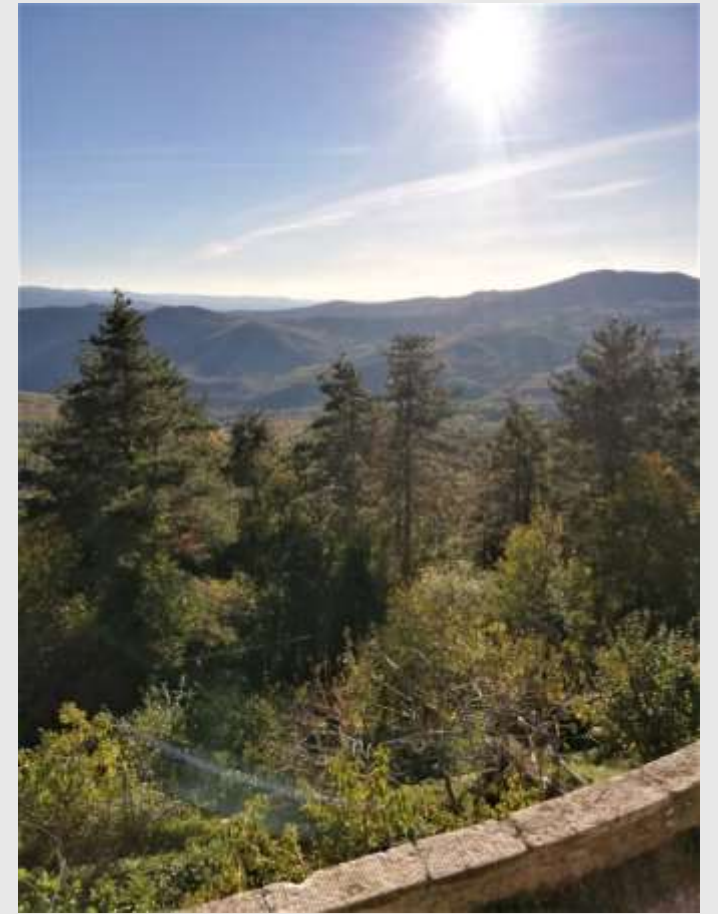

During the Middle Ages some hermits built a small oratory and since 1484 the Virgin Mary sometimes appeared to some shepherdesses, therefore the Sanctuary was erected.

Later a porch and more rooms were added. Until 1914 it was a pilgrimage site.

The name comes from the rocks which rise in the forests nearby.

Great landscape and
view!

This is my nice and very friendly group. Sometimes we go trekking together.

In our area, Tuscany, there are lots of amazing places and forests which are worth visiting.
